

Conflict Minerals Policy

IntelliEPI is committed to the responsible sourcing of minerals. IntelliEPI's efforts related to conflict minerals are aligned to the work of the Electronic Industry Citizenship Coalition® (EICC®) and Global e-Sustainability Initiative (GeSI).

We have an established program to regularly evaluate our supply chain so we may provide, and expect our suppliers to cooperate in providing, due diligence information to confirm any tantalum, tin, tungsten and gold that may be in our supply chain is DRC conflict free.

To promote transparency on the metals and minerals used throughout the supply chain, IntelliEPI makes its due diligence information available to its customers upon request using the EICC / GeSI Conflict Minerals Reporting Template format.

We strongly encourage our suppliers to pursue 100% of their conflict minerals supply from CFS program certified smelters.

Sincerely,
Kevin Vargason
VP / Operations
Intelligent Epitaxy Technology, Inc.
